SUMMARY

Experienced MERN Stack and Flutter Developer with a strong background in building dynamic, scalable web and mobile applications. Proficient in React, Node.js, MongoDB, and Flutter, along with solid skills in computer operation, I bring a detail-oriented approach and a commitment to delivering user-focused, efficient solutions.

PROFESSIONAL EXPERIENCE

Computer Operator

Union Land Office   01/2020 - 12/2021   Shahapur, Chatkhil, Noakhali
https://adibrasel.github.io/Tosil_Office/
All land related work under Bangladesh government was done in this office.

- Completed all computer related work of Union land office, starting from data entry.
- I have created a web site for this office, where many types of work can be done easily. https://adibrasel.github.io/Tosil_Office/

Customer Service Officer (CSO)

Bank Asia(Agent Banking)   01/2022 - Present   Shahapur, Chatkhil, Noakhali
https://bank-asia.netlify.app/
They used to do all the transactions that should be done in Agent Bank, it is ranked 7-8 in Bangladesh, I worked here for many days and made many types of web sites for them, which they still work.

- I provided complete customer service.
- I have created this website to show the best services. https://bankasia.netlify.app/
- This page has been created for various tasks, from here complete account information can be printed, DPS calculation, TDS calculation, and remittance incentives are calculated from here. https://adibrasel.github.io/Bank_Asia_Office/

Junior Software Engineer

Urban IT Solutions   09/2023 - 01/2024   Mirpur-10, Dhaka, Bangladesh.
https://adibrasel.urbanitsolution.com/
A variety of software is developed here, including Websites, Android apps and Desktop apps. Many projects of Bangladesh government work here.

- Here I work on Android app development.
- First of all I design 2 full apps here.
- Then for the first app I created the backend, created APIs for login, registration, creating data, reading data, modifying data and deleting data.
- Then given the APIs from Office, I apply them to the full app. Alhamdulillah the project has been completed.
